

BENJAMIN SHLAMOVSKY-KOROZ

Software Engineering Technology - Artificial Intelligence Student | Operations, Customer Service & Technical Support Experience

Ottawa, Ontario | [Phone] | [Professional Email] | [LinkedIn] | [GitHub]

Professional Summary

Software Engineering Technology - Artificial Intelligence student with hands-on experience in React, JavaScript, C#, Java, Python, SQL, HTML, CSS, Git, and object-oriented programming. Brings several years of customer service, logistics, yard operations, leadership, and service-management experience across retail, construction supply, food service, and home improvement environments. Known for reliability, practical problem solving, team coordination, and the ability to learn technical systems quickly.

Technical Skills

Programming: C#, Java, JavaScript, Python, SQL

Web Development: React, React Router, HTML5, CSS3, Vite

Tools & Platforms: Git, GitHub, Visual Studio, Visual Studio Code, Eclipse, Windows, Linux

Concepts: Object-Oriented Programming, Agile/Scrum, UML, Software Architecture, Requirements Analysis, Debugging, Testing, Relational Databases

Education

Advanced Diploma - Software Engineering Technology - Artificial Intelligence

Centennial College | Online Program | 2026 - Present

Relevant studies include object-oriented programming, web application development, databases, artificial intelligence, statistics, Linux, software engineering, software architecture, and systems analysis.

Selected Technical Projects

React Portfolio Website

- Built a responsive multi-page portfolio using React, Vite, reusable components, and React Router.
- Organized source code into reusable components, pages, and public assets; used Git for version control.

Intelligent Agent Simulation - Python

- Modified and tested a simple-reflex intelligent agent, implemented decision logic, and documented behavior across simulation scenarios.

RPG Character Management System - C#

- Applied classes, constructors, properties, enumerations, validation, static members, and progression logic in an object-oriented application.

Professional Experience

Driver / Yard Worker - Home Hardware - Stittsville

1 year

- Prepared and loaded customer orders, completed deliveries, and supported day-to-day yard operations.
- Handled building materials safely, assisted customers, and maintained organized inventory and loading areas.
- Coordinated with store and yard staff to complete deliveries accurately and on schedule.

Yard Foreman - Home Hardware - Woodlawn

2.5 years

- Led daily yard activities, assigned tasks, supported staff, and helped maintain safe and efficient material handling.
- Coordinated customer pickups, order preparation, inventory movement, and workflow priorities.
- Provided practical problem solving and front-line leadership during busy operating periods.

Service Technician Manager - Big City Windows & Doors

8 months

- Coordinated service work and technician activities for window and door service requests.
- Supported customer communication, issue tracking, scheduling, and follow-up on service needs.
- Balanced field-service priorities with operational and customer-service requirements.

Yard Worker - Home Hardware - Woodlawn

2.5 years

- Loaded and unloaded lumber and building materials, prepared orders, and assisted customers in the yard.
- Maintained safe work areas and supported inventory organization and stock movement.

Sales Associate - Lowe's

1 year

- Assisted customers with product selection, general questions, and locating home-improvement merchandise.
- Maintained shelves and displays and supported department organization and customer-service standards.

Line Cook - Juke Joint

1 year

- Prepared menu items in a fast-paced kitchen while following food-safety and cleanliness standards.
- Worked closely with kitchen staff to manage multiple orders and maintain consistent service during rush periods.

Line Cook - Ridge Rock

1.5 years

- Prepared and cooked food to order while managing timing, quality, sanitation, and station organization.
- Collaborated with kitchen staff to keep service moving efficiently during high-volume periods.

Line Cook - Eagle Creek

1 summer

- Supported seasonal kitchen operations, food preparation, cooking, cleaning, and service during busy shifts.

Cashier - Rexall

1 year

- Processed customer purchases accurately, handled payments, and provided friendly front-line service.
- Supported store cleanliness, merchandising, and routine customer inquiries.

Core Strengths

Problem Solving | Team Leadership | Customer Service | Logistics | Technical Troubleshooting | Time Management | Adaptability | Communication | Safety Awareness

Additional Value

Combines hands-on operations and leadership experience with current software engineering and AI studies, providing a practical perspective on teamwork, troubleshooting, customer needs, and technical problem solving.
